# IWAYINI

# IWAYINI

---

## ABOUT:

IWAYINI, young Moravian micro-winery, founded by Martin Zůl in 2020 and decided to focus on a few varieties from unique tracks, from which then they create harmonious wines that respect the given terroir. It divides wines according to the method of vinification into two rows. The ISIKO series are lightweight drinkable, fresh and juicy wines. In line Umlando hide more complicated layered wines that epitomize return for fermentation and maturation of wines in wooden barrels with longer work on yeast. Since the year 2023 the winery started using the method pressing of whole grapes in all batches. The winery has vineyard in Kurdějov, which has a unique closed microclimate, highly sloping tracks and great exposures.

With 115 hectares of estate vineyards cultivated on historic sites dating back to the 15th century, Sedlecká vína continues a deeply rooted viticultural tradition. The winery proudly stands behind wines that have graced prestigious state banquets, including those of Queen Elizabeth II and Hillary Clinton, a testament to their exceptional character and craftsmanship.
