FEEL THE HEART BEAT

... IN CZECH WINE

Come and taste some great wine jewels from the heart of Europe - Czechia. After last year's successful return, Czech wines are again proud to be found at ProWein. Czech National Wine Centre with support of Wine Fund created a colourful tasting zone consisting of three sections:

BUBBLES & NATURAL & PIWI

Yes, wine-making is after all a natural process! We love our terroirs and our yeast and we respect them and we love to let them do their work. Low-intervention wines are trendy among the Czech crew just as they are around the world. And bubbles? No matter the grape variety, we love it! Did you know that PiWi grapes are so popular in Czechia - you can find and taste them today!

LOCAL DARLINGS

You definitely know some of them, Grüner Veltliner, Blaufränkisch or even Welsch Riesling but are they any different in Czechia? Come to the booth and meet local Pálava (white and aromatic) or St. Laurents (light and fruity red), they are quite unique to our region.

THE INTERNATIONALS

You can find them in many places in the world, those with Czech roots are solid in acidity, spiciness and pleasant fruitiness, taste some great Rieslings, Sauvignons Chardonnays, Pinots Blanc and Noir, too.

In the HALL 13 look for the CIRCLES designed for us by CHYBIK + KRISTOF ASSOCIATED ARCHITECTS. Czech booth (E20) is talking to each visitor by circles and rounded shapes so typical for winemaking. Every morning and afternoon you can meet a different group of winemakers.

The representation is unbelievably colourful: meet micro winemakers beside the representants of some biggest companies in the country. You will find the winners and finalists of various major competitions in Czechia (Winery and Winemaker of the year, Czech National competition etc.) as well as successful exporters around the globe. Czech wine has already found its fans in many different countries from Japan, through the UK and Sweden over to the US and Canada.

WHAT'S SO SPECIAL ABOUT

CZECH WINES?

Moravian and Bohemian white wines are characterized by their fascinating spectrum of aromas, rich extractive substances and harmonious combination of full-bodied flavours along with fresh, vibrant acidity. Recently, red wines have also been gaining ground, which, thanks to modern technological processing, are full-bodied and expressive, yet soft and velvety, with a pleasant fruity aroma. Rosé wines are also keeping the trend. Beautiful not only for their colour but also for their exceptional youthful character.

CZECH MASTERCLASS AT PROWEIN FORUM

- Sunday the 10th of March at 10 a.m.
- Czech Jewels of Central Europe, led by Klára Kollárová, National Sommelier.

Bohemia Sekt

"Giving sparkle to life's
big and small moments"

ABOUT:

The first sparkling wine started to mature in our cellars in 1942. Thanks to this long tradition and the strong trust that we enjoy among our consumers, we produce more than half of the sparkling wines that are drunk in the Czech Republic. We are among the most important grape growers in the country and we are also the biggest processor of Moravian grapes. Our strength comes from the soil and landscape where we operate. Sustainable business practices and protection of natural sources are at the centre of our interests.

Bohemia Sekt won the 2022 Czech Winery of the Year in the category of large wineries and was awarded for the "incredible performance of the Bohemia Sekt Company and the constantly improving quality of its wines" by the expert jury of the sparkling wine section at the prestigious Concours Mondial de Bruxelles 2022.

Castle Winery Bzenec

ZÁMECKÉ
VINAŘSTVÍ
BZENEC

Castle winery & vineyards
~ est. 1873 ~

"Noble wines"

ABOUT:

Castle Winery Bzenec cultivates with an emphasis on efficiency and ecology 540 hectares of vineyards in the three Moravian wine sub-regions: Mikulovsko, Slovácko and Znojemsko.

Castle Winery Bzenec supplies quality Moravian wines to the domestic and foreign market. Emphasis is placed on varietal characteristics, technological purity and modern expression of all produced wines. It offers wines with a unique and unmistakable varietal taste and aroma, which come from grapes with guaranteed origin of the Morava wine region. For the production of original Moravian wines today, the winery uses the most modern winemaking technologies. Using controlled fermentation technology combined with a distinctive approach, it produces wines of the highest quality that have their own "soul".

Castle Winery Bzenec is an eight-time winner of the Wine Salon of the Czech Republic and their wines score points in many other international and domestic competitions.

WINERY

"We don't rush our wines"

ABOUT:

We are a boutique winery runs by two friends, carrying the more than 50 years old family tradition of the wine production.

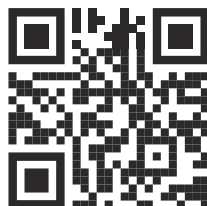

The Znojmo region, where our vineyards take place and all our wine production comes from, belongs without doubt to one of the best wine-growing regions of the Czech Republic, neighbor on the Weinviertel region in Austria.

Our winery emphasizes on qualities of each wine, especially its typical variety according to the unique aspects of the terroir as well as balance and harmony. We produce wines with VOC original Znojmo certification, these are mainly fruity wines. Our specialty wines are the Grand cru or those produced with oak or acacia aging barrels, which are suitable for fine dining.

We only produce every single batch in around 3000 bottles every year. You can try and taste our wines in selected wine shops or in the whole range of restaurants, from regional to Michelin-starred ones.

Popela Perná

POPELA
P E R N Á

"Wines made by Pálava sun"

ABOUT:

The winery was founded in 1994 by Stanislav Popela in the village of Perná. The winery cultivate over 24 hectares of its own vineyards in the municipalities of Perná and Bavory in the wine region Mikulovsko and strives to intensively use this unique terroir. The slopes on which their vineyards are located are mainly characterised by their calcareous subsoil with a high proportion of mineral substances. The local climatic conditions, the location of the vineyards and the soil composition are considered to be the best in South Moravia.

The winery produces varietal, quality, predicated and special wines typical for the Mikulov wine region. Further part of the production includes cuvéé, frizzante and sparkling wines.

Popela Perná winery obtains awards at international competitions such as Concours Mondial Bruxelles (2020, silver), Great American IWC (2021, silver), AWC Vienna (2021, gold, silver), Decanter (2022, silver, bronze), Prague Wine Trophy (2022, gold), Decanter 2023 (bronze).

THAYA

THAYA
VINAŘSTVÍ

"Your senses matter here"

ABOUT:

THAYA vineyards are located in the wine region Znojemsko, a region typical for its full-flavoured and fresh wines. It is the River Dyje or Thaya, which, through its thermoregulatory influence, together with the cold winds from the Bohemian-Moravian Highlands, gives the local wines their unmistakable spicy taste and fullness. Thanks to the granitic subsoil and the loess with a mixture of calcareous clays, the Veltliner, Sauvignon and Riesling are particularly outstanding.

THAYA farms about 105 hectares of own vineyards located in the immediate vicinity of the winery and in the neighbouring wine-growing villages. The vineyards adjacent to the Podyjí National Park have been known since the ancient Romans for their unique sunny location.

THAYA winery is repeated finalist in competitions such as Winery of the Year and Winemaker of the Year, THAYA wines are also regularly successful in international competitions, and with each harvest the winery moves forward.

Vinařství Dvořáček LTM

DVOŘÁČEK
VINÁŘSTVÍ LTM MIKULČICE

ABOUT:

„Trying to make distinctive and large wines while humbly learning on daily basis from the best winemakers and other colleagues is a lifelong challenge for me.“

We are a small family company (father Lubomír, son Tomáš and daughter Martina Magdaléna) having been engaged in vine growing and production of distinctive great wines for several decades. I myself have cultivated vine since 1986 and produced high quality natural Moravian wines since 1996, since 2000 on professional basis. I am a member of Union of Oenologists of the Czech Republic, chairperson of Great Wines of Great Vineyards association and together with my son we are members of COLLEGIUM VINITORUM organization. We cultivate 2 hectares of our own vineyards and viticulture and winegrowing are our big hobby. We endeavor to produce wine as unique and inimitable great natural drink.

Vinařství LAHOFER

ABOUT:

A progressive winery inspired by traditional winemaking practices with the use of modern production technologies, one of the largest grape growers in the Czech Republic with 430 hectares of its own vineyards exclusively in the Znojmo wine region. Production of 600,000 bottles of premium wines per year, holder of the Winery of the Year 2020 and 2021 czech awards (in its category). The philosophy of the winery is to produce juicy wines with the right balance of acidity and natural residual sugar. The outcomes of its work are steadily appreciated by expert committees at major international and domestic wine shows. The architecturally exceptional building of its new headquarters has become significant for him.

Vinařství Mikrosvín Mikulov

"The wine of my life"

ABOUT:

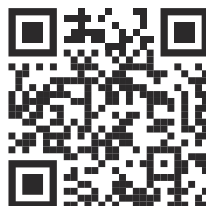

All wines from Mikrosvín Mikulov Winery are produced exclusively from its own grapes, which is harvested on 12 vineyard lines in the wine region Mikulovsko. The absolute top among the vineyards are the tracks Železná, Goldhamer, and Purmice.

The calcium rich soil in the Mikulov region give the wines a unique character of great spiciness and density by limiting the growth of the vines and concentrating their quality. The premium grape variety here is Welschriesling, alongside Gruner Veltliner, Riesling and Chardonnay. In recent years, new local varieties such as Pálava have been successful.

Winery Mikrosvín's philosophy of vine cultivation is based on a low load on the bushes, a gentle approach with a maximum limitation of chemical inputs. All the grape material is gently harvested at the appropriate time, the best grapes are harvested by hand. The grapes are then processed with the utmost care, production is based on the gravity approach. For the production of their wines, the special approach of the people is extremely important.

Vinařství Petr Bunža

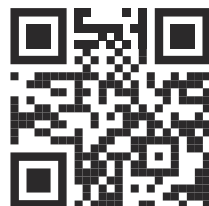

ABOUT:

Bunža winery is found in a small town Bzenec in the south-east Moravia. Bzenec is a town with long tradition in viniculture.

The winery owns 17 hectares of vineyards on excellent southern and southwestern exposures of the slopes of Bzenec. These slopes are found in fertile loesses in 250-290 metres above sea level, where warm air circulations are redominant and where mature grapes have a distinct character. Vineyards are located in the immediate vicinity of the winery and part of the vineyards is farmed in ecological mode. Mr. Petr Bunža build a new winemaking production and equipped it with the latest winemaking technologies. The most advancet methods of controlled fermentation and secondary fermentation are used with processing the grapes. Consequently, white wines are stored in stainless steel tanks and red wines mature traditionally in oak wine barrels. Our wine is made only from our own grapes. Our wines have been awarded prices at many regional and international exhibitions. We produce wines with full flavor and spicy notes that are fresh and balanced at the same time. Our winery focuses on a harmonious combination of fullness, spiciness and freshness, resulting in wines with a rich structure and a lively aromatic palette.

Vinařství Volařík

"Wine is our life"

VINAŘSTVÍ VOLAŘÍK
MIKULOV

ABOUT:

The family winery, whose roots date back to 1945, entered the wine market under the name Vinařství Volařík in 2007. Winery manages 80 ha vineyards in the wine region Mikulovsko, of which 4.2 ha are in organic production. The grapes are harvested mainly by hand. The winery focuses on the production of predicate wines, especially white wines, the offer is complemented by rosé, red wines and Volařík Sekt produced using the traditional method.

The winery creates its own range of TERROIR wines - a combination of the most prestigious vineyards with the most suitable grape variety. While producing the terroir wine, special care is taken to bring out the uniqueness of the vineyard in which the vines grow. The must is fermented with a wild yeast culture and no fining agents are used during fermentation and subsequent ageing. The doses of sulphur dioxide are kept to a minimum and only coarse diatomaceous earth filtration is carried out before bottling. The resulting wines offer a unique symphony of colour, aroma and flavour and are destined to develop for a long time in bottle. The winery also offers PIWI varieties, which have become increasingly popular in recent years. However, the main varieties of winery is Welschriesling and Pálava.

Vinné sklepy Kutná Hora

"We let wine happen naturally"

ABOUT:

Vinné sklepy Kutná Hora is a family winery restoring the once almost lost glory and tradition of viticulture and wine-making in the region of Kutná Hora, where wines are pure, mineral and capable of graceful aging.

The company successfully takes care of 44 hectares of vineyards in the very demanding method of sustainable agriculture, taking lunar phases into account, and benefiting from the use of biodynamic preparations. All in order to enrich both the soil and the society, preserve the environment and produce naturally balanced terroir-driven wines. They're the one and only winery in the Czech Republic to carry the prestigious DEMETER label of biodynamic agriculture.

Their natural wines always ferment spontaneously without added yeast, then they like to work with fine lees to protect them. Wines age in French oak barrels of finest quality or in stainless steel. White wines are bottled after a gentle filtration, whereas the reds are usually bottled unfiltered.

Vitis

"Crafting Excellence Since 1996"

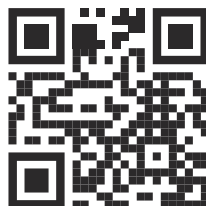

ABOUT:

In the heart of Strážnice, 1996 marked the birth of Vitis Strážnice, a family winery founded by the spirited Jindřich Baňář. Inspired by his love for life's beauty – from nature to music, and of course, exceptional wine – Jindřich's legacy lives on through his family. Rooted at the base of the White Carpathians, our 20-hectare vineyards yield wines with a unique character, minerality, and freshness. Annually, a 25 000 of bottles showcase our dedication, produced with using a technology of fermenting in acacia barrels. Proud moments include Salon vín accolades for our red wines and a Bucharest gold medal for Horní hory, the only Moravian red. Riesling 2022 triumphed in the 2023 Král vín competition, crowned the Extra Dry White Wine category winner.

At Vitis Strážnice, we don't just craft wines; we capture life's essence, passion, and beauty in every sip.

VOC Mikulovsko

VOC Mikulovsko

ABOUT:

The first VOC appellation system in the Mikulov wine sub-region was introduced by the VOC Mikulovsko z.s. The challenging approval process for granting the VOC Mikulovsko label was successfully completed in 2011 and further developed into its current form, i.e. a multi-stage appellation. For the first time, the Mikulov sub-region was able to offer consumers wines with a guarantee of origin, high quality and originality confirmed by the winemakers themselves. Thanks to the high quality and diversity of the vineyards of the Mikulov wine sub-region and the multi-stage appellation system, the winemakers have included eight typical varieties in the appellation, which are traditionally grown here and achieve exceptional quality. These are Chardonnay, Pálava, Riesling, Welshriesling, Pinot Blanc, Pinot Gris, Pinot Noir, and Sylvaner. The Mikulov sub-region is considered by many to be the best wine-growing region in the Czech Republic, where wines with a distinctive character and unmistakable identity are produced.
